MASS MURDERERS IN WHITE COATS:

- **DOCUMENTS** the mass murder of "mental patients" by psychiatry in Nazi Germany and the United States — a fact referred to by the author as psychiatric genocide. In fact, Lenny Lapon shows how the killing of thousands of psychiatric inmates and other "useless eaters" in Hitler's Third Reich set the state in a practical and ideological way for the later extermination of six million Jews and other victims of Nazi persecution. Other Holocaust researchers rarely acknowledge the incredible importance of this fact.

- **SHOWS** the common ideological roots of the killings in Nazi Germany and harmful and often fatal psychiatric "treatments"/tortures in the United States — roots in eugenics and other political practices and ideas that continue on a massive scale today.

- **GIVES** an ***ex-inmate's/"mental patient's" perspective*** of the oppressiveness of psychiatry, its violence, its dangers and its use as a major form of social control.

- **PRESENTS** lengthy excerpts form conversations Lapon had with eleven psychiatrists who are ***members of the American Psychiatric Association (APA) and who are also connected in various ways to Nazi Germany***.

- **DETAILS** a history of the organized resistance to psychiatric oppression by its victims — a history of the ***psychiatric inmates liberation movement***. Includes many important events and documents of this movement in which Lapon has been an activist for seven years. Just one example is the Declaration of Principles from the Tenth Annual International Conference on Human Rights and Psychiatric Oppression held in Toronto, Canada in May, 1982. A few of the 30 principles are listed here:

- We oppose involuntary psychiatric intervention including civil commitment and the administration of psychiatric procedures ("treatments") by force or coercion or without informed consent.
- We oppose forced psychiatric procedures such as drugging, electroshock, psychosurgery, restraints, solitary confinement, and "aversive behavior modification."
- We oppose the psychiatric system because it uses the trapping of medicine and science to mask the social control function it serves.
- We oppose the psychiatric system because it is frighteningly similar to the Inquisition, chattel slavery and the Nazi concentration camps.
- We believe that the psychiatric system cannot be reformed but must be abolished.

LINKS U.S. PSYCHIATRISTS TO NAZI GERMANY

Lapon went through **24,000 entries in the Biographical Directory of the Fellows and Members of the American Psychiatric Association**. He lists 63 of these psychiatrists who have easily observable connections to Nazi Germany. Those he interviewed included:

- **Gisela Ebert Fleischmann** (M.D. from the University of Freiburg in 1944) who stated, "We knew they would be exterminated...some of them we had to transfer."

- **Franz Hornung** (University of Heidelberg, M.D., 1945) who said of Carl Schneider, "He was a good teacher. He gave good lectures. What else he may have done I have no idea...I heard only that he committed suicide." Schneider was a renowned author of psychiatric textbooks, head of the department of psychiatry at the University of Heidelberg and a mass murderer/consultant/administrator of the "euthanasia" program.

- **Bruno Franek** (Friedrich Wilhelm University, Berlin, M.D., 1944) whose clinical psychiatry professor was Max de Crinis. De Crinis was chairman of the department of psychiatry at the University of Berlin and the director of the Sonnenstein killing institution.

We Remember.

"In the fall of 1939 a group of psychology students were given a tour of the state psychiatric institution Eglfing Haar in Nazi Germany. Dr. Pfannmueller, a psychiatrist and director of the institution, explained the 'euthanasia' or 'mercy killing' program that was being used on the inmates. In the children's ward twenty five children were being starved to death. They ranged in age from one to five years. Pfannmueller lifted up one emaciated child who was near to death and told the students that food is withdrawn gradually, not all at once. 'With this child,' he said, 'it will take another two or three days.' Ludwig Lehner, one of the students and later a prisoner of war, said in a sworn statement at the Nuremberg War Crimes Trials, 'I shall never forget the look of that fat, grinning fellow with the whimpering little skeleton in his fleshy hand, surrounded by the other starving children'."

PSYCHIATRY **SOCIAL CONTROL**

BIG BROTHER

"Psychiatry is actually based on an enormous erroneous assumption — the assumption that 'mental illness' exists as a disease or various diseases."

"A favorite ruse of psychiatry is to label certain kinds of behavior as 'mentally ill.' As far as I know, none of the Pentagon's generals were committed to psychiatric institutions for their genocidal violence against the people of Vietnam and (by proxy) against the people of Iran and El Salvador."

"Psychiatry must be recognized as the biggest sham of the 20th centry and as a catalyst for implementing *'1984'*, *'Brave New World'* and *'Friendly Fascism'*."

READ AND LEARN

Read ***Mass Murderers in White Coats*** and learn more about such psychiatrists as:

- **Edwin Katzen-ellenbogen**, member of the faculty of Harvard Medical School who later was convicted of war crimes committed as a camp doctor at Buchenwald concentration camp.
- **Alexander Buehler**, member of the German Nazi Party who later abused inmates at Metropolitan State Hospital in Norwich, California.
- **Leo Alexander**, the expert psychiatric consultant to the U.S. prosecution in the Nuremberg trial of some of the Nazi killer-doctors (Alexander has been one of the leading users and proponents for the use of electroshock in our country for the past several decades.)

There are plenty of others:

Psychiatrists, scientists, generals, political officials and more who emigrated to the United States from Nazi Germany and continued their activities.

MASS MURDERERS IN WHITE COATS:

PSYCHIATRIC GENOCIDE IN NAZI GERMANY AND THE UNITED STATES

by Lenny Lapon

291 Pages — Published by

PSYCHIATRIC GENOCIDE RESEARCH INSTITUTE

in 1986

"The first gas chambers were those operated by psychiatrists in 1939 at Brandenberg, one of six 'euthanasia' installations in Nazi Germany for killing 'mental patients'."

"From 1939 until 1945 psychiatrists from Nazi Germany and the occupied countries were busy exterminating at least 300,000 of their 'mental patients.' The fact that they killed over eighty-five percent of all psychiatric inmates in Germany reflects on the immensity of the operation. It also suggests that most German psychiatrists were involved in the slaughter, at least at the level of transferring their 'patients' to known killing centers."

CONSPIRACY!

Thanks for your interest in the research. I have been working on this daily since 1968, when I read ***Rush to Judgement,*** and decided to read the entire **Warren Commission** study of **President Kennedy's** murder—26 volumes and about 300 cubic feet of public material in the **National Archives**. I began to see the same names, money operations and cover-up in other assassinations—**Malcolm X, Robert Kennedy, Martin Luther King**. I also began to see a developing series of political murders at the local level, similar to the 400 **unsolved killings** of progressive people in **Germany** that paved the way for **Hitler's** rise to power in the 1930's.

In 1972, I discovered the extraordinary work of **Mae Brussell**, a researcher whose weekly tape cassettes have been a basic source for my continued work. My study of the politics of murder, and the history of **world intelligence networks**, has led in many unexpected directions. The horrors of **Vietnam**, the permanent war economy, and even the mass murder of **Blacks** at **Jonestown** are all part of the same reality. I studied the murders of **John Lennon, Jessica Savitch, Pope John Paul I and Mary Jo Kopechne**, and the attempted murders of **Ronald Reagan and Pope John Paul II. Watergate, Contragate, KAL 007, the Knights of Malta**, and international fascism are all parts of the same puzzle.

I recently moved to **Santa Cruz, California** to become **archivist** at the **Mae Brussell Research Center** following the death of my friend and fellow researcher, **Mae Brussell.**

THE FOLLOWING ARTICLES AND TAPES ARE AVAILABLE. ALL ITEMS POSTPAID. PLEASE-MAKE CHECKS TO MAE BRUSSELL RESEARCH CENTER. 3 WEEKS FOR DELIVERY.
